# PROGRAM

For over 23 years, the Ontario Asphalt Pavement Council has partnered with MTO, OGRA, MEA and ORBA to present the annual Partners in Quality Road Tour Seminars that in the past were offered in four locations throughout the province. The seminar presents a unique opportunity for producer members and contractor representatives to get the latest industry information that will impact their work in the coming year and to discuss industry challenges with local MTO, municipal and consulting engineers.

For the first time since its inception, the Partners in Quality seminar series will not be on the road. However, during this time, we are offering the Partners in Quality seminar via a webinar. The webinar will bring together the best minds in the industry to engage in a conversation about how we can work together to achieve quality asphalt pavements.
