

# COVID-19 DISINFECTION SERVICES

With the threat of Coronavirus (COVID-19) growing in Canada, it's important to look at each workplace and public space to ensure there is adequate infection control. Prevention and treatment for outbreaks is key to the health and safety of all facility occupants and customers.

In response to this viral threat, PGC Services Inc. is now offering disinfecting solutions. We have equipped our fleet of vehicles capable of carrying up to 1000 US gallons with hot water and disinfectant to provide high pressure washing service. All solutions used are listed on the Government of Canada website as authorized disinfectants which can be used against SARS-CoV-2, the coronavirus that causes COVID-19.

Due to the capacity of our vehicles, PGC Services is able to disinfect various sizes of properties and locations. Additional to the hourly rates quoted, regular service agreements can be priced based on quantity and size of area requiring disinfecting. For any inquiries please contact [info@pgcservices.ca](mailto:info@pgcservices.ca) or call our office line at **(905)-900-0010**.
